USING THE NATIONAL ACCOUNT FLEET PROGRAM IS SMART MONEY

Competitive, standardized pricing

Now, no matter where you are operating, you can get the same competitive pricing you are used to. Just go to one of our authorized truck stops or dealer locations and you can have peace of mind that you will get standardized pricing throughout the country.

Nationwide Availability

We know that your company operates across the country, and when the need for tires arises, you want the convenience of being able to purchase right away. With the National Account Fleet Program, now you have the ability to get the type of pricing and service you expect from your local dealer, no matter where you are.

Direct, centralized billing

Whether you purchase from an authorized service center or truck stop, all billing will come from Double Coin, to help streamline your accounting process.

Cashless transaction

With your account, you will not need to worry about payment at the point of purchase. Instead, the program will allow you the ability to place any charges for products and services that Double Coin offers against your account, rather than paying at the service location.

OEM Specification allowances

With shrinking margins, we know every little bit counts. So, you can receive an OEM Spec Allowance for vehicles ordered with Double Coin tires.

Double Coin Value-Quality, Warranty, Service

To us, value starts with a great price, but that is just the beginning. You need the performance, retreadability, a solid warranty and knowing you can get service when you need it. It's what you can expect with every Double Coin tires.

With these and other programs that end-users and dealers enjoy, it's easy to see why *The Smart Money is on Double Coin*.
